## **CALL - EAC/A01/2015**

### **Erasmus+ Vocational Education and Training Mobility Charter 2016-2020**

#### **1. Introduction**

This specific Call is based on Regulation (EU) No 1288/2013 of the European Parliament and of the Council of 11 December 2013 establishing 'Erasmus+': the Union programme for education, training, youth and sport repealing Decisions No 1719/2006/EC, No 1720/2006/EC and No 1298/2008/EC with EEA relevance.

The Work Programme for Erasmus+ for 2016 C(2015) 6151 as adopted by the Commission foresees a "VET Mobility Charter" for the accreditation of bodies with a strong record of successfully organising high-quality mobility for VET learners and staff.

#### **2. Background**

One of the objectives of the 'Erasmus+' Programme is to increase quality mobility within vocational education and training (VET) and support the European internationalisation of VET organisations in the Erasmus+ Programme countries.

The Copenhagen Process has, since 2002, strived to modernise vocational education and training, make it more attractive and develop Europe-wide approaches such as increased transnational mobility, better transparency and recognition of qualifications and general internationalisation in the sector, thus contributing to the creation of a genuine European labour market.

#### **3. Objectives and description**

The Erasmus+ VET Mobility Charter is intended to encourage organisations that have track records of proven quality in organising VET mobility for learners and staff to further develop their European internationalisation strategies. European internationalisation is not just the furthering of learning in another Erasmus+ Programme country by embedding high quality mobility activities into curricula. It also involves developing international approaches throughout the sending organisation, for example by networking with bodies in other countries, promoting the learning of foreign languages and looking beyond national VET approaches.

The acquirement of the VET Mobility Charter will give the VET Mobility Charter Holders the possibility to apply in a simplified way under the Erasmus+ Key Action 1 mobility for VET learners and staff as of 2017. It aims also to support the capacity building of sending organisations to organise quality mobility for learners and staff, whilst at the same time rewarding, promoting and further developing quality in mobility.

The VET Mobility Charter is awarded for the full duration of the Erasmus+ Programme and is subject to monitoring as mentioned later in the call.

Note that the award of the VET Mobility Charter does not imply any direct funding nor any guarantee for funding under the Key Action 1 mobility for VET learners and staff.

The VET Mobility Charter holders will be identified on the Erasmus+ website, in order to make more visible to companies in Europe the sources of trainees coming from an organisation of a high qualitative background.

The 2017 Erasmus+ Programme Guide will be published in the autumn of 2016.

The non-award of the Charter does not preclude the right of the VET organisations to submit a full application under subsequent application deadlines for VET mobility as indicated in the Erasmus+ Programme Guide.

The VET Mobility Charter is not obligatory for participation in Erasmus+ VET Mobility. VET mobility in the Erasmus+ Programme is also open to new bodies and smaller institutions and indeed other applicant bodies which may not wish to be accredited with the VET Mobility Charter, but which nevertheless would like to participate in transnational VET mobility. These organisations can submit applications for mobility project funding in the usual way under the Key Action 1 mobility for VET learners and staff as indicated in the Erasmus+ Programme Guide.

## **4. Eligibility criteria**

### **4.1. Eligible applicants**

Applications for the VET Mobility Charter can be submitted either by a single VET organisation or by a national mobility consortium, provided that:

- for an application as individual VET organisation: the applicant must be a VET organisation established in a Programme Country, sending its own learners and staff abroad;

Each sending VET organisation remains responsible for the quality, the contents and the recognition of the mobility periods. Each member of the consortium is required to sign an agreement with the consortium coordinator to specify the roles and responsibilities and the administrative and financial arrangements; the modalities of cooperation shall specify matters like the mechanisms for preparation, quality assurance and follow-up of mobility periods.

### 11. The VET Mobility Charter

After the selection and awarding process is completed, a VET Mobility Charter is awarded and signed by both the applicant organisation and the National Agency.

#### 11.1. Reporting

In the mid-term of the Charter and at the end of the last mobility contract, the holders of the VET Mobility Charter will be asked to report on the development of the European internationalisation strategy and the impact of the Charter.

#### 11.2. Monitoring

Quality standards have to be adhered to by organisations holding the VET Mobility Charter and will be monitored by the Erasmus+ National Agencies during the Programme. These can be found in the Erasmus+ VET Mobility Quality Commitment that is annexed here to the Call and that has to be signed for every subsequent grant agreement for VET mobility. Principles as set out in the European Quality Charter must also be adhered to and can be found at the following link: <http://qualityinternships.eu/>

**In terms of monitoring**, holders of the VET Mobility Charter may be subject to monitoring/ on-the spot checks / system checks by the National Agencies for the following:

- a) the operational side of the management;
- b) the quality of the mobility;
- c) the development of the international strategy.

During the lifecycle of the VET Mobility Charter, the Erasmus+ National Agencies may organise thematic monitoring visits and may invite VET Mobility Charter holders to meetings with National Agencies and other stakeholders.

### **11.3. Modification of a Consortium holding a VET Mobility Charter**

Any proposed modification to the composition of a consortium must be signalled in writing and requires prior approval by the relevant National Agency which awarded the VET Mobility Charter to the consortium. The legal instrument for including any modification to the composition of a consortium is an amendment to the VET Mobility Charter, which has to be signed by both parties before its entry into force. Following requirements are necessary:

- The addition of a new member requires a mandate signed between the co-ordinator and the new member and acceptance letters from all other members signed by the contact persons. These should be forwarded by the co-ordinator with the request.
- The addition of a new member is of course subject to the agreement of the relevant National Agency after verification of compliance with the eligibility criteria, of non-exclusion, with the selection and award criteria published in this call.
- The withdrawal of a member requires written explanation from the co-ordinator and a withdrawal letter from the withdrawing co-beneficiary, signed by the legal representative. Where the minimum requirements published in this call are no longer fulfilled, the relevant National Agency reserves the right to decide on the continuation/termination of the VET Mobility Charter.

An amendment may not have the purpose or the effect of making changes to the VET Mobility Charter which would call into question the decision awarding the Charter or be contrary to the equal treatment of applicants.

### **11.4. Termination of the VET Mobility Charter**

The VET Mobility Charter commits holders to carry out mobilities of quality and will be valid until the end of the ERASMUS+ programme. National Agencies are responsible for ensuring that VET Mobility Charter Holders respect the qualitative standards on a continuous basis.

Poor quality, bad financial management, fraud, low mobility numbers, or no progress/ declining focus with the internationalisation strategy could be reasons to withdraw the Charter. Failure to keep complying with the initial exclusion, selection

and award criteria of this Call could also be a reason to withdraw the Charter. In this event, the organisation could still be eligible to apply in the usual way under the Key Action 1 mobility for VET learners and staff as indicated in the Erasmus+ Programme Guide.
