

CEEPUS Partner Conference

Sept 25, 2024

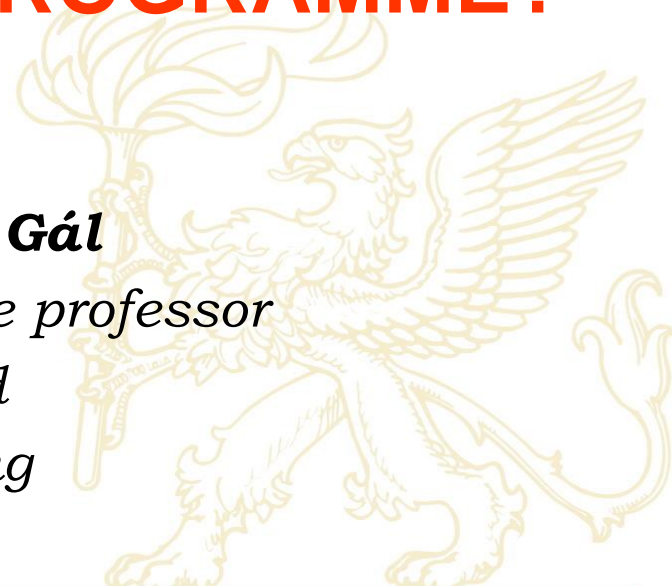

HOW CAN CEEPUS STE BE PART OF AN ENGINEERING STUDY PROGRAMME?

Dr. habil. PhD József Gál

CEEPUS coordinator, associate professor

University of Szeged

Faculty of Engineering

Why STE not summer school?

Short Term Excursions and Summer Schools which may be shorter than a month and may also be attended by undergraduates.

Advantages:

- more sender partner
- no hard public procurement

Disadvantages:

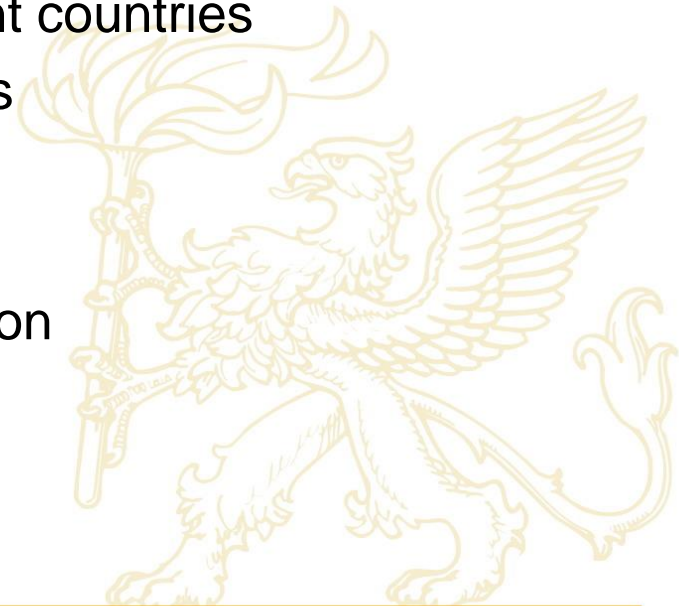

- organization more difficult

Part of curriculum?

- **Topic**
 - Need an idea
 - Comparing local foods - globalization
 - Different donuts in different countries
 - Modern transport solutions
 - Sustainability in our life
 - Fair trade
 - Role of AI in your profession
 - Open mind partners

Part of curriculum?

- **Target groups**
 - BSc/BA or MSc/MA or PhD students
 - Engineers, economists, etc.
 - Students and teachers in cooperation
- **Process**
 - Semester long course
 - 3-5 days physical mobility
 - **Credit for it!!!** (elective course)

How does it work?

- **Preparation**
 - Choose an idea
 - Choose a partner (in Hungary or abroad)
 - Plan agenda (theory and mobility)
 - Choose applicants students/teachers
 - Help to write and manage applications
 - Wait for award

awarded

How does it work?

- **Process before mobility**
 - Complete agenda
 - Must be found in Neptun
 - Start theoretical preparation (classes)
 - Offer homework (pptx)
 - Create student teams (2-3 students)
 - Help to prepare mobility (accommodation, travel, insurance)
 - Travel

How does it work?

- **Process during mobility**
 - Meet your host partner/university
 - Add some more information (grant)
 - Let time for students to discover the town and fulfil project job
 - Students make presentations (results and opinions, impressions)
 - Presentations, CEEPUS documents
 - Let students free time
 - Travel home

How does it work?

- **Process after mobility**
 - Dissemination, presentation for other students, future potential applicants
 - Documentation at home university for credits
- Welcome among new applicants in the next round!

Thanks for your attention!
