# Lessons and Tasks for the Future

- **Intra- and inter-institutional difficulties:**
  - CEEPUS is not widely known and acknowledged. Task: **communication to be improved.**
  - Problems to find real cooperativeness among the teaching staff. Task: **to improve the system of incentives using internal and external resources.**
  - Problems of administration. The university's administration staff is overloaded, the lecturers hate administration. The intra-institutional administration is complicated and full of strict regulation in timeframes and costs. **Without introducing a new, simplified administration the most valuable part, the exchange of experience, knowledge and meeting each other, will be lost!**

# Lessons and Tasks for the Future 2.

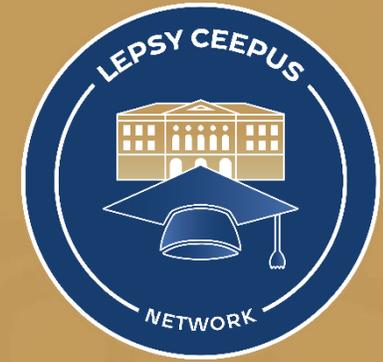

- Problems of contacting the potential partners. **Hardly available database of potential partners.**
- **To whom to address the initiative? Who is in charge to start the internal administration?** Loss of time.
- **Different approaches to CEEPUS basic documents and procedure.**
- Different language skills.
- **Different timetables and schedules of academic activities**
