## PART I: GENERAL INFORMATION

### • DESCRIPTION OF TOWN

#### - SHORT HISTORY AND LOCATION

Szabolcs-Szatmár-Bereg county is one of the biggest counties of Hungary, located in the North-East part of the country. Szabolcs-Szatmár-Bereg county is bordering Slovakia, Ukraine and Romania. It shares borders with the Hungarian counties Hajdú-Bihar and Borsod-Abaúj-Zemplén. Nyíregyháza, the capital of Szabolcs-Szatmár-Bereg county, is the 7th biggest city in Hungary with a population of about 120.000. Nyíregyháza is the gate of Eastern Europe and it is situated 250 kilometers East from Budapest. It is often said to be the city of statues and parks, because visitors can find lots of green areas and monuments all over the city. The city centre is worth visiting for its nice cafés, restaurants and elegant shops, where everybody can have a pleasant time. The original settlement was virtually destroyed during the Turkish occupation. The history of the modern city really begins with the colonization of the Nyírség in the mid-18th century when Count Ferenc Károlyi, the prime mover behind the program, brought in many Slovak immigrants. Traditionally, the region has been thickly settled with scores of tanya (small, isolated farms or groups of farmsteads). The sandy soils are well suited to the raising of sugar beets, potatoes and tobacco. In addition, sunflowers, poppy seeds, melons, apricots, grapes and especially apples are produced. There are large numbers of pigs and cattle. Nyíregyháza is still chiefly a market centre for the area's agricultural products. Light industry

has grown in importance, and in the early 21st century the most important branches of local industry were the manufacture of rubber, paper, chemicals, toys, and electronics. After World War II the city became an important road and rail junction leading to the town of Záhony on the Ukrainian border. Nyíregyháza is also a health resort (Sóstó Spa is a medicinal salt lake) and a notable recreation centre. Nyíregyháza is a popular tourist destination because of Sóstó (Salt Lake), an area that has two lakes with minerals, providing wonderful cure for loco motor diseases. Sóstó also has an open-air bath with several pools. The newest attraction of Sóstó is the fountain with sound and light effects. For more information you can visit: <https://nyiregyhaza.info.hu/en/>
