BUDAPEST BUSINESS SCHOOL – UNIVERSITY OF APPLIED SCIENCES

Budapest Business School (BBS) is one of Hungary's market leading and largest universities, educating more than 17,000 students. BBS has three Faculties in Budapest: Faculty of Commerce, Hospitality and Tourism; Faculty of International Management and Business; Faculty of Finance and Accountancy. Each faculty provides specialized knowledge for different fields of business, which also means significant synergies during studies. All programmes are in English with the exception of one programme, which is launched in French as well (International Business Economics in English/ Gestion Internationale in French).

Graduates who obtained their degrees from BBS during recent years have become recognized experts and professionals in their field and are in great demand in both the domestic and the international labour markets.

As a foreign student wishing to study in one of the faculties of BBS, there are several programmes to choose from, both on bachelor's

and master's programmes in English, as well as the Doctoral School of Entrepreneurship and Business.

Year by year, more and more new students study at BBS from different countries of the world.

One of the reasons behind this large increase is the wide range of opportunities they can choose from: some choose to study as a Stipendium Hungaricum scholarship holder student, others as a Christian Youth scholarship holder student, or they can take part in the Erasmus+ programme, but it is also popular to study as a self-financing student at Budapest Business School.

BUDAPEST UNIVERSITY OF TECHNOLOGY AND ECONOMICS

The mission of our university is to issue prestigious diplomas which are amongst the most highly regarded in the labour markets of Hungary as well as Central and Eastern Europe, and to train graduates who would be the most sought after by the best companies and institutions.

The predecessor of Budapest University of Technology and Economics, the Institutum Geometricum, was established in 1782. During the past 239 years the professors of the university have strived to provide an outstanding quality of education. This has earned the university an international reputation, attracting students as well as professors from all over the world.

Our university has eight faculties: Civil Engineering, Mechanical Engineering, Architecture, Chemical Technology and Biotechnology, Electrical Engineering and Informatics, Transportation Engineering and Vehicle Engineering, Natural Sciences, Economics and Social Sciences.

BME offers study programmes in English language in all educational areas. In certain specialties programmes in German or French are also available. Students arriving from foreign countries, totalling nearly 2,300 at present, represent over 12% of BME's enrolment, and the graduates of 2020 come from over 30 countries.

BME as foundation member within the European University called EELISA joined forces with eight other prestigious higher education institutions to develop the European Engineering Degree and to start joint degree programmes and research projects while making efforts to achieve the long-term goal of a single cross-border European accreditation in engineering.

Corvinus University of Budapest is an internationally recognized, prestigious, state-accredited Hungarian university with over 300 partner universities on five continents, and memberships in some of the most elite international networks (e.g. CEMS, PIM, AACSB, EFMD, EMPA). It is the only Hungarian university with EQUIS and AMBA accreditations, but it also owns other prominent accreditations and labels such as BSIS, EPAS, EAPAA, as well as CFA qualified finance programmes. The number of study programmes conducted entirely in English is continuously increasing.

Corvinus University, with approx. 12,000 students, offers educational programmes in three disciplines, Business and Management, Economics and Social Sciences at bachelor's, master's and PhD levels and it runs three MBA programmes in English as well. Business and Management is the main profile of the University and an exceedingly successful field of education.

The University is located in Budapest, the capital of Hungary, which serves as the main centre for Hungarian scientific and cultural life.

Come to Corvinus to earn your bachelor's, master's, MBA or PhD degree here!

Eötvös Loránd University (ELTE)—in terms of student and staff numbers, quality of education and research, and its international relations—is a prestigious institution of public higher education in Hungary, operating continuously since 1635.

As a top-ranked research university in Hungary, it is the most popular higher education institution among applicants as well as alma mater of five Nobel laureates and leading figures in technology, public policy, and culture in Hungary. Currently about 30,000 students study at nine faculties and one institute, with about 3,000 international students from over 100 countries.

ELTE has widespread international relations for cooperation and exchange all over the world, which offers a large number of possibilities for study-abroad semesters to Hungarian and international students at ELTE. The degree programmes are accredited by the Hungarian Accreditation Committee and course credits are transferable in all countries of the European Union. Wide-ranging ser-

vices, an excellent mentor system, Orientation Week, and cultural programmes all ensure that you find your friends and place on campus and in the vibrant city of Budapest.

Eszterházy Károly Catholic University (EKCU) is one of the oldest higher education institutions in Hungary where long traditions support future-oriented education, talent management and research activities. Currently serving more than 6,000 students, among them an increasing number of international students from all over the world, it provides intensive research opportunities and quality education due to its ideal student-professor ratio, excellent professors, company relationships and internship possibilities. The five Faculties of the university are located on two campuses within easy reach from the capital of Hungary and the two towns hosting them offer its students safe and friendly atmosphere with a reasonable cost of living compared to other European cities. International students can choose from a wide variety of accredited study programmes offered in English in several fields, including Computer Sciences, Fine Arts, Music, Education Sciences, International Relations, Business and Management, and

Viticulture and Oenology. For international students, EKCU offers accommodation in dormitories and various support services such as the mentoring system, intercultural training and extracurricular programmes.

HUNGARIAN UNIVERSITY OF AGRICULTURE AND LIFE SCIENCES

Founded on the 1st of February 2021, the Hungarian University of Agriculture and Life Sciences (MATE) has become one of the largest and oldest agricultural-focused, multi-disciplinary tertiary education institutions in Europe, which came into being by the integration of the former Szent István University, Kaposvár University, Gyöngyös Campus of Eszterházy Károly University and Georgikon Faculty of University of Pannonia.

MATE consists of 5 campuses for study and research hosting nearly 12,000 domestic and 2,000 international students from 102 countries. With active partners on almost every continent (more than 250 partner institutions in 50 countries), MATE students and staff operate on a global scale to gain and share the essential knowledge for success in the globalized world. We see this as the cornerstone for a more secure tomorrow and are proud to be a vital part of it.

Our areas of specialization include:

- Teaching and research of food source production
- Food quality and safety
- Water and soil as strategic resource
- Environmental protection and sustainability
- Energy security
- Bio economy

Óbuda University (ÓÚ) is the number one practice-oriented technical University in Budapest, Hungary with more than 140 years of fine tradition. The university creates a vibrant community around 12,000 students, with hundreds of international students attending from over 50 countries worldwide. ÓÚ has 7 faculties (6 in Budapest and 1 in Székesfehérvár), 3 doctoral schools, and 8 research centres. We are committed to teaching in a student-friendly manner, and providing opportunities for lifelong studies creating an active community. The main emphasis of our University is on high-quality educational programmes and talent management, which are based on strong theoretical fundamentals, practical workshops, own and international academic research results. Our students have great achievements in several national and international competitions, such as at the Spaghetti Bridge Building, Design Challenge Robotics Building, Bosch Electromobil, and Shell Eco-marathon.

"Our aim is to maintain a high-quality and student-focused higher education which provides strength in research, spanning a diverse set of intellectual disciplines and applications within the fields of engineering while serving science and the future.

ÓÚ is an attractive, international place for study and research for many people. Óbuda University's degrees will give you the edge in your career; diplomas issued at the University are accepted by and transferable to all countries within the European Union."

Located in the North West of Hungary, lying halfway between Budapest and Vienna, Győr retains the baroque charm of its well-preserved city centre, offering a wide choice of cultural as well as natural treasures. Győr's geographical position means that many Central European cities are within easy travelling distance.

The University's 35 English-taught study programmes, at all academic levels from bachelor's to doctoral, and covering the fields of engineering, IT, architecture, pedagogy, economics, international relations, law, administration, social work, medicine and health, musical arts, tourism and agriculture, all ensure an excellent quality of education.

In 2019, the University's main campus, situated on the banks of the River Danube and just 5 minutes' walk from the city centre, was voted the most attractive in Hungary. On campus are located the state-of-the-art Halls of Residence, the University

library, cafés, bars, restaurants and opportunities for 25 sports / cultural activities.

For students searching for high-quality teaching together with a full social life on a friendly and secure campus, Széchenyi István University is the choice for you!

TOMORI PÁL COLLEGE

Tomori Pál College is a private academy which was founded in 2004. The primary objective of the college is providing high-quality study opportunities for students from all over the world who wish to continue their studies in higher education.

Accredited by the State of Hungary, degrees issued by the College are recognized and accepted across the whole of the European Union.

Our college offers the following programmes:

- Pre-Course
- Business Administration and Management (BA)
- International Business Administration (BA)
- International Relations (BA)

Why choose Tomori Pál College?

- Students may choose to start MA (master's) courses after graduation in the territory of the European Union.

- Our students also have the opportunity of participating in the Erasmus+ Programme.
- The autumn semester is from September to January and the spring semester from February to June. We make every effort to ensure that students can continuously join the courses, even during the academic year.
- We offer practice-oriented programmes in small classes, focusing on skills development.

We offer accommodation to all of our students at the Budapest campus, in rooms for 2-3-5 people, all equipped with a private bathroom.

With its 8 campuses, 363 buildings, 28,500 students, 8,740 full-time employees and 17.7 million medical procedures per year, the University of Debrecen tops national statistics. The University of Debrecen has the second largest student body in the nation in total and the highest number and proportion of international students (6,500 and 22%, respectively). The most popular choices for the majority of them continue to be in medical fields. UD offers almost 80 courses taught entirely in English (with solidly increasing numbers) on every academic level (BA/BSc, MA/MSc and PhD).

Fields of study include Medical and Biological Sciences, Dentistry, Pharmacy, IT, Engineering and Business Studies among others. The top research fields of the University include Medical and Health Sciences, Pharmaceutical Industry, Food Industry, Natural Sciences, Electronics, and Information Technology. The academic potential of the university is clearly indicated by the annual figures of 3,000–3,500 publications as listed by sources like Scopus, WoS, MTMT

and iDEa Academic Profiles. Due to its broad range of international connections, the university has signed cooperation agreements with several hundred partner institutions in the past.

The University of Dunaújváros is a university of applied sciences with a cosy and true family atmosphere in the central region of Hungary. The town of Dunaújváros is located on the banks of the river Danube, 70 km to the South of Budapest, the capital of Hungary.

We offer the following study programmes to our students in English language:

- Mechanical Engineering BSc and MSc
- Materials Engineering BSc
- Business Administration and Management BA
- Computer Science Engineering BSc
- Communication and Media Science BA
- Engineering Management BSc
- Teacher of Engineering MA

As a multicultural student community in our campus, 15% of our total student population are international students from 25 countries, such as Brazil, Azerbaijan, India, Jordan, Kazakhstan,

Morocco, Portugal, Russia, Spain, Syria, Tunisia and Turkey. We have actively participated in Erasmus+ KA103 and KA107 student and lecturer mobility programmes for many years as well as in the Stipendium Hungaricum scholarship programme. The modern educational infrastructure of our campus not only boasts the usual facilities for higher educational studies (classrooms, lecture halls, library, dormitories), but also has a TV studio, Students' Leisure Centre (Campus Club), sports halls as well as numerous laboratories.

A unique, spacious, green campus, home to more than 10 thousand Hungarian and international students as well as 600 lecturers and researchers, in a beautiful natural environment, up-to-date laboratories, lecture halls, workshops, student hostels and facilities for sport, culture and entertainment – this is the University of Miskolc. Tradition (founded in 1735) combined with novel directions in research and education result not only in a large number of professional awards, but also in an increasing interest of international and Hungarian students who pursue studies at the highest academic level at the University of Miskolc. Graduates of the University acquire exceptional skills during their time in Miskolc and gain jobs with a wide variety of top employers. Miskolc, with its more than 150 thousand inhabitants, is a traditional industrial city, the cultural and economic centre of the North Hungarian Region.

The University of Miskolc welcomes all purposeful and motivated students who aim to study in a traditional yet modern and fresh academic environment. Full degree study programmes are available in English:

- Bartók Béla Music Institute
- Faculty of Earth Science and Engineering
- Faculty of Materials Science and Engineering
- Faculty of Mechanical Engineering and Informatics
- Faculty of Economics
- Faculty of Arts
- Faculty of Law

The University of Pannonia offers internationally competitive quality education & research opportunities at 5 faculties, contributing to the economic, scientific, and cultural development of the region. International students are supported by available scholarship opportunities covering all study costs and surrounded by a welcoming, diverse, and inclusive study environment.

The University offers ongoing study guidance to realize the full potential of students and ensure the right career steps. By working closely with company partners and putting emphasis on working-life skills, students graduate with the right skillset and knowledge to meet the requirements of employers. The University's cutting-edge multidisciplinary research centre carries out several R&D projects and provides excellent research opportunities to bring impactful changes to the region and beyond.

Veszprém – the city of queens – gives home to the main campus of the University of Pannonia. The town won the European Capital of Culture for 2023 programme, which aims to promote the region's cultural and creative side, providing the University's students with plenty of opportunities to get involved with.

Since it opened its doors in 1367, University of Pécs has positioned itself high on the higher education world map among Universities which build up future generations of modern society and offer excellent education. Being one of the most internationalized universities in Hungary, UP is today home to more than 4,500 foreign students from over 114 countries.

Students can take advantage of a wide and varied selection of almost 80 programmes, covering arts, business, social and natural sciences, IT, engineering and medicine. These are all taught in English, which gives the university its international status.

Prospective students who can't commit to a full degree are welcome to visit one of the summer schools or visit for a semester or two on the various scholarship schemes available. This way, they'll still get a taste of Pécs, the multi campus town, where history and tradition meet modern life. Choosing to study in the European

Capital of Culture of 2010, one becomes a part of a lively multicultural community.

UNIVERSITY OF PHYSICAL EDUCATION

The University of Physical Education (TE) and its institutional predecessor is one of the oldest higher educational institutions in Europe in the field of body culture, including sports and education, TE combines its traditions and culture to match the new challenges of a knowledge-based society, while taking into consideration various socio-economic demands.

TE preserves its traditions and permanently develops in harmony with what the given period requires. This is why in its educational strategy, theoretical and practical knowledge complement each other. In order to ensure competitive knowledge for the students in each field of study, the amount of sport trainings has increased. While developing its educational content, our institution became aware of the practice-based demands formulated by the representatives of the sport federations and educational institutes,

some of the future utilizers of knowledge. As a result, the training programmes have been harmonized with labor market expectations.

The mission of the University is to train specialists who, as future intellectuals, possess a high level of theoretical and practical knowledge applicable in the various fields within sports.

The legal predecessors of University of Sopron have a long history with the oldest one dating back to 1735. Located beside the Austrian border, in the “Most Loyal City” of Hungary, it provides excellent education at four faculties specializing in forestry, wood technology, pedagogy and economics.

Our academic offer includes programmes in three languages: Hungarian, English and German. Due to low student-to-teacher ratios, our students have the advantage of personalized approach to learning. The university provides all first-year students placement in one of its comfortable dormitories.

The campus is located in a nature conservation area, the Botanical Garden, which also serves instructional purposes with its collection of living plants.

We conduct our programmes according to the European Qualifications Framework of the Bologna Process; all programmes have been accredited by the Hungarian Accreditation Committee.

Sopron plays a special role within the region Western Transdanubia, one of the most pleasant, fastest developing regions of the country. It is a real privilege to work, study, or live in Sopron. For Sopron graduates, the years spent here are usually the highlight of their lives.

The University of Szeged (SZTE), with a history dating back to 1581, is located in the city of sunshine. Szeged attracts thousands of young people due to its lively, urban lifestyle, colourful festivals and its safe environment. According to QS World University Rankings SZTE is the best Hungarian University in 2021. Outstanding professors have worked at the University, including the Nobel Laureate Albert Szent-Györgyi (1937), who was the first to isolate Vitamin C. The University of Szeged is one of the largest universities in Hungary, and the efforts of its nearly 21,000 students and 2,500 academic staff at the 12 university faculties help make the institution the regional centre of knowledge in Hungary and Central Europe. The number of international students is constantly increasing and they make up 20% of the total number of students. A mentor system assists students in settling down in Szeged and finding their way around the University. The SZTE offers international study programmes at 12 faculties. In most cases the language of the instruction is English, but we offer

programmes in French, German and other foreign languages in the following study fields:

UNIVERSITY OF VETERINARY MEDICINE BUDAPEST

The University of Veterinary Medicine Budapest (UVMB) is the only veterinary university in Hungary. It is one of the oldest veterinary schools in the world and the most international veterinary campus in Europe. The combination of the more than 230-year-old tradition with the most innovative educational and technological tools ensures that graduates of the university are equipped with the most up-to-date knowledge and are ready for the rewarding and challenging veterinary profession after their studies.

Our graduated students are prepared to:

- cure animals at animal clinics worldwide,
- work on farms with small and large animals,
- specialize in exotic or wildlife species,
- become a researcher,
- make their voice heard in the State Office of veterinary hygiene and public health sector.

The curriculum consists of 5.5 years and it leads to a DVM (Doctor of Veterinary Medicine) master's degree. Our degree is recognized in the EU (E.A.E.V.E. accreditation) and will be recognized in the USA and Canada after our AVMA accreditation goes through (the preparation for the accreditation has begun already).

Our programme is highly practise oriented– students have around 1800 contact hours with animals. At the well-equipped UVMB clinics they get practical training in every vet related field.

The Hungarian Rectors' Conference (HRC), as the unique representative body of local universities, is proud to be one of the oldest and most prestigious organizations in Hungary responsible for the university sector, academic cooperation and internationalization of higher education.

HRC operates with a young and enthusiastic team, with strong engagement towards development, focusing on innovative solutions and keen to achieve outstanding success together with its partners in the realization of joint higher education projects.

HRC promotes Hungarian higher education worldwide, organizes roundtables, conferences and workshops, manages incoming and outgoing delegations' visits, and coordinates short-term study (e.g.: summer university) and scholarship programmes. HRC enhances collaboration with international partner organizations and promotes bilateral cooperation between Hungarian and international

higher education institutions, whilst also participating in European Union policy-making and EU funded projects.

HRC is in active cooperation with universities, ministries, embassies (both in and out of Hungary), public foundations, national agencies, and the press.

ACTIVITIES SUPPORTING HIGHER EDUCATION:

- > Online and offline student recruitment
- > Coordination of summer programmes, scholarship programmes, and short-term study programmes
- > Matchmaking for PhD students and researchers with Hungarian institutions
- > Organization of alumni and community building events

Tempus Public Foundation (TPF) is a non-profit organization established in 1996 by the Hungarian Government, with the task of managing international cooperation programmes and special projects in the fields of education, training, youth and EU-related issues.

The Study in Hungary initiative is managed by the Tempus Public Foundation and supports the internationalization of Hungarian higher education by enhancing student mobility and institutional partnership building.
