Presentation of the Higher Education System

19-27

HIGHER education

PhD studies

Academic spec.

**MSc studies
60-120 ECTS**

**Master of applied studies
and/or specialization**

Int. Stud.

**Bachelor studies
180 or more frequently
240 ECTS**

**Bachelor studies
180 ECTS**

15-18

Secondary education

- **Gimnasium**
- **Art school**
- **Vocational school**

**Other forms of
vocational education**

Some figures

- **242 848 students enrolled in 2013/2014 academic year**
- **Two types of HEIs – universities and colleges of applied studies**
- **1553 study programmes accredited during the first accreditation cycle**
- **National Commission for Accreditation and Quality Control is a member of ENQA and EQAR**
- **Accommodation:** 17.184 places in student centers (866 from vulnerable social groups);
- **Food:** 44.733 students (3 meals per day)+4.418 students (1 meal per day)

Remark: individual faculties mostly act as legal bodies, integrative functions are being developed and gradually applied.

Please note that only universities and other independent legal entities can participate in the Erasmus+ programme

Important documents for project planning

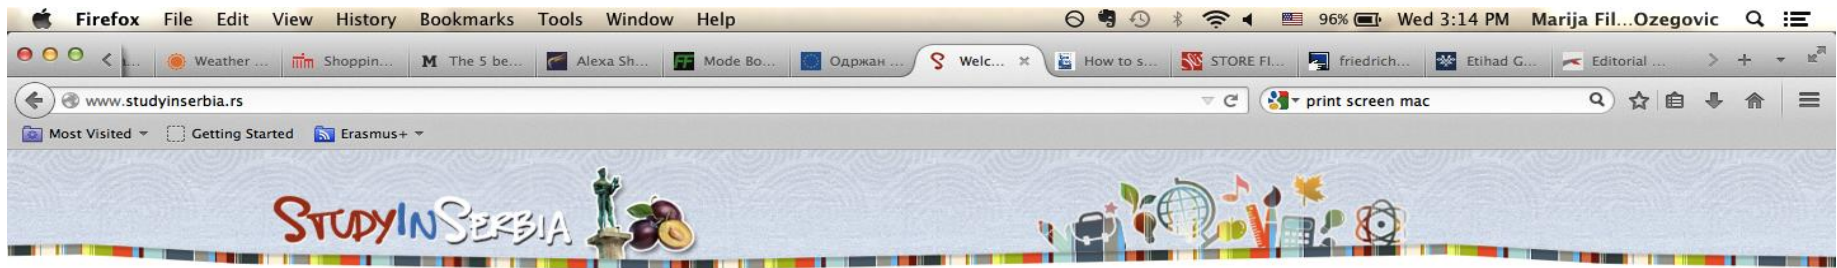

- **Strategy on Education Development (translated in English)**
- **Action plan for implementation of the Strategy**
- **Law on Higher Education**
- **Already funded projects, <http://projects.tempus.ac.rs/>**
- Description of the Serbian education system is/will be available in Eurypedia
https://webgate.ec.europa.eu/fpfis/mwikis/eurydice/index.php/Main_Page

It is very important that the project supports the national policies relevant for HE reform

Useful for mobility projects

2013

Study in Serbia, a database of learning opportunities in Serbia for foreign students provides foreign students interested in studying in Serbia with an opportunity to find courses available in foreign languages as well as courses which provide additional opportunities for foreign exchange students, such as consultations in English or language classes. Furthermore, Study in Serbia also helps foreign students learn more about Serbian education system, and find practical information which will be very useful

Thank you for your time!
