Vršnjačka medijacija-Peer mediation

No violence, please!

O medijaciji - About mediation

Nasilje je postalo sve češće upotrebljavan obrazac komunikacije i odnosa među ljudima u svim strukturama društva: u porodici, u školi, na radnom mestu, na ulici, u medijima, političkom delovanju. Posebno zabrinjava porast nasilnih obračuna u školama i to porast vršnjačkog nasilja. Porast učestalosti nasilja među decom i mladima odraz je jačanja nasilja u celom društvu – nasilnog rešavanja sukoba i rastuće kulture nasilja.

Violence has become increasingly widely used form of communication and relationships between people in all structures of society: in the family, at school, at work, on the street, in the media, political activity. Particularly alarming increase in violence in schools and clearing to increase in bullying. The increase in the incidence of violence among children and youth reflects the strengthening of violence throughout society - violent conflict resolution and the growing culture of violence.

Obuka za vršnjačku medijaciju - Training for peer mediation

Ideja nam je bila da se učenici upoznaju sa pojmom konflikta, načinima za njihovo prevazilaženje, ali i da ih podstaknemo da samostalno rešavaju probleme sa kojima se suočavaju u svom svakodnevnom okruženju. Planirani broj učenika je 15 (iz svakog odeljenja po 1 učenik, osim učenika završnih razreda). Broj učenika koji se zadržao u radu je 12.

Planirane su 6 raionice i to:

1.Timski rad

2.Aktivno slušanje

3.Koraci u medijaciji 1

4.Koraci u medijaciji 2

5.Medijator na delu

6.Šta me brine, a šta me raduje

Za svaku radionicu učenicima je dat materijal, urađen je priručnik za učenike, uverenja koja će dobiti po završetku obuke.

The idea was to familiarize students with the concept of conflict and ways to overcome them, but also to encourage them to independently solve problems they face in their everyday environment. The planned number of students is 15 (from each department by 1 student, except for final year students). The number of students who stayed in work is 12.

Planned are 6 workshops:

1. Teamwork

2. Active listening

3. Steps in mediation 1

4. Steps in mediation 2

5. The mediator at work

6. What worries me, and what makes me happy

For each workshop the students were given materials, drafted a manual for students, who will receive a certificate on completion of training.
