Improving the quality of the Erasmus+ programme  
in the field of Education and Training  
with long-term activities (LTAs)

*A catalogue of LTAs completed in 2024*

This publication, edited by the SALTO Education and Training TCA Resource Centre and funded by the European Commission, is based exclusively on outcome and output data submitted by LTA Coordinators from the National Agencies of the Erasmus+ programme countries. In the event of any discrepancy between the database on the [www.salto-et.net](http://www.salto-et.net) website and other databases or websites, sole responsibility lies with the respective LTA project holders. The results presented in this publication—materials, outputs, and outcomes of LTAs—represent not the end of our journey, but its most vital thresholds. They are doors to impact, offering entry points for further exploration, adaptation, and use. True impact lies ahead, unfolding as these resources are shared, applied, and carried forward by others. We invite you to step through these doors and be part of what comes next.

## WHAT ARE LTAS? (ACCORDING TO THE NA GUIDE)

Long-term activities (LTAs) present a strategic framework that can cover several years. They are carried out by several National Agencies who have agreed to cooperate to develop a series of activities linked to a policy area

with the aim to produce an **impact** on the development of the programme and of the policy area they are tackling.

Within the agreed scheme, one National Agency takes the lead and manages the overall coordination of a long-term activity.

### The other National Agencies participating in the scheme can

- organise, on a rotational basis, specific activities; and/or
- provide a financial contribution to functioning of the long-term activity during the period of duration of the long-term activity.

Long-term activities are recurrent or complex activities, which support the programme or policy development.

### How to plan LTAs?

The coordinating National Agency of a long-term activity includes in its planning in particular, details on subjects and themes the long-term activity plans to tackle. The National Agency specifies the links with the objectives of the TCA strategy, including any applicable policy objective. Information on organisational functioning of the activity, types and estimated number of single activities planned under a long-term activity and information on monitoring and dissemination of results are also to be included. For policy-related activities, the National Agency should moreover describe how the objectives of the activity and the National Agency's participation will contribute to the policy priorities of the programmes.

### National Agencies may cover the following roles in LTAs:

1. Coordinator of a long-term activity;
2. Organiser of a single TCA;
3. Co-organising National Agency;
4. Sending participants to activities organised by other National Agencies.

## What support mechanism stands behind LTAs?

The SALTO Education & Training Resource Centre provides National Agencies with different means of support (tools, materials, coordination) to enhance the quality of project management and implementation of their LTAs.

## WHO BENEFITS FROM LTA RESULTS – AND HOW?

By the end of 2024, the first generation of LTAs in Education and Training had been completed.

This booklet, *Doors to Impact*, collects the results – both tangible and conceptual – of the first generation of Long-Term Activities (LTAs) in the field of Education and Training. Its primary aim is to make these materials accessible, structured, and relevant for four key target groups: **Erasmus+ beneficiaries, National Agencies, Priority Area SALTO Resource Centres, and the European Commission.**

In project management terminology, **outputs** refer to concrete deliverables created during or as a direct result of a project (e.g., reports, presentations, guides), while **outcomes** describe the changes in knowledge, behaviour, or systems that those outputs generate over time. However, in the context of LTAs – complex, evolving, and collaborative – these categories are not always one-size-fits-all.

*While Erasmus+ beneficiaries are the primary audience for LTAs and TCAs, their value extends well beyond.* As highlighted in recent research<sup>1</sup>, LTAs also play a key role in supporting **organisational learning within National Agencies** – through internal capacity building, shared practices, and strategic dialogue. National Agencies benefit from tools such as expert networks, evaluation materials, and synthesis reports that, while *not direct* project deliverables, act as **functional outputs** essential for quality development and alignment.

Likewise, **Priority Area SALTO Resource Centres** can use the lessons learnt and tools created in LTAs to inform future initiatives, spark new thematic collaborations, and reinforce transnational learning. For them, recommendations, models, and adaptable practices are crucial outcomes – even when not explicitly created for their role.

At the level of the **European Commission**, LTAs offer structured reflections and evidence-based recommendations that feed into **better programme guidelines, improved expectations, and policy development.** They contribute to a shared understanding of what quality, innovation, and relevance mean across projects and countries.

This publication recognises that **relevance defines value**: each target group benefits differently from the same results. By organising this collection through the lens of these four perspectives, we aim to reflect the true breadth of impact that LTAs can achieve – and invite all stakeholders to engage with and build upon what has been collectively created.

**COORDINATOR OF LTA:** SALTO E&T TCA RC, HU01

**PARTNERSHIP:** HU01, DK01, LU01, MT01, NO01, SE01, NL01 (Core partners)

The overall aim of the long-term activity was

- to help project promoters draft their Erasmus+ Plans (strategic objectives of accreditation and its possible impact on their organisations);
- to support project coordinators to maintain quality standards of mobilities during accredited periods, thus, to achieve expected impact on their organisations;
- to support KA1 external experts and internal NA staff assessors to harmonise evaluation of accreditation applications and final reports at European level.

# DIGITALISATION IN SCHOOL EDUCATION – LTA

HU01\_0362\_LTA\_2022

**COORDINATOR OF LTA:** SALTO E&T TCA RC, HU01

**PARTNERSHIP:** EE01, HU01, LU01, MT01, NL01, CZ01, SK01, DE03, IE01

The LTA focused on

- priority topics, such as digital skills and competences, digital content, technologies and practices, digital safety, digital literacy and tackling disinformation, artificial intelligence; and
- continuous training for teachers and educational staff running digital projects in school education.

**SECTOR(S):** SE

**TYPE OF LTA:** Complex

**For NAs – NADirs, heads and NA Colleagues  
(TCA Officers, sectoral colleagues, Priority Contact Points)**

## OUTCOMES:

- Improved awareness about needs in the field of digital transformation of school education in partner countries
- Gaining insights into beneficiary experiences and collect information on indirect needs
- New LTA coordinated by another NA (EE01) with broader target group (SE and VET) in collaboration with 2 other DigLTAs involved (PL01, IT01)

## OUTPUTS:

- Activity reports: 2021, 2022, 2023 and Final report *Erasmus Plus Research website*
- SALTO Platform (*2021, 2022, 2023*, key recommendations for future partnership cooperation and coordination; and for future beneficiary support in *Final report Part One, Part Two, Executive summary*)
- Participant surveys, interviews

## For Priority SALTOS

### OUTCOMES:

Improved LTA project management, clear understanding of effective processes in LTAs; improved awareness of synergies with LTAs in the same field

Using experts who transitioned from Erasmus+ beneficiaries to experts to better promote the programme

Improved awareness of needs of National Agencies and Erasmus+ beneficiaries for quality improvement of the programme

### OUTPUTS:

SALTO Platform (*Final report Part One, Part Two, Executive summary*)

## For European Commission

### OUTCOMES:

Improved awareness of benefits of NA collaboration and impact of LTA activities

### OUTPUTS:

*Yearly report; SALTO Platform (Final report Part One, Part Two, Executive summary)*

## For beneficiaries

### OUTCOMES:

Improved awareness and understanding of innovative digital education practices

Enhanced dissemination of project results, facilitated knowledge sharing, and networking opportunities within the topic field, contributing to greater outreach and impact.

Improved awareness and understanding of innovative digital education practices

### OUTPUTS:

13 international seminars involving circa 451 participants across 31 countries –

The commitment of 451 participants, based on the participant survey, contributes to achieving the intended outcomes.

- A collection of materials showcasing innovative digital education practices.
- Promotion and dissemination of Erasmus+ project outcomes and EC tools such as DIG Comp framework, SELFIE and policy documents (e.g., Digital Education Action Plan).

## Participation Erasmus Alumni for Civic Engagement

IT02\_0372\_LTA\_2022

**COORDINATOR OF LTA:** IT02

**PARTNERSHIP:** FR01, ES01, LU01, BE02, RO01, PT01, SE01, LV01, CZ01

The LTA aimed

- to unify the network of Ambassadors, Alumni and Role Models for all sectors;
- to create a structure of national observatories that can periodically measure improvements on themes promoted by the European Commission (internationalisation, civic engagement, inclusion, green, digital, etc.);
- to identify critical areas and design together possible corrective actions;
- to organise international events in which Alumni/Ambassadors meet;
- to foster synergies between funds in order to increase number of mobilities and projects granted; and
- to promote civic participation.

**SECTOR(S):** SE, VET, HE, AE, YH

**TYPE OF LTA:** Recurrent

**For NAs – NADirs, heads and NA Colleagues  
(TCA Officers, sectoral colleagues, Priority Contact Points)**

### OUTCOMES:

Creation of training modules focused on European values, political engagement, and citizenship education.

**Focus groups:** 63 tables in 8 TCA events; about 1 000 people involved; 23 participating countries. Themes: Youth civic and political engagement; European citizenship education; Social inclusion, diversity, non-discrimination; Gender inequality; Europe and its colonial past; East-West distinction; Learning mobility and European elections; Youth and under-representation; Voting age; Internationalisation and Erasmus+ mobility

### OUTPUTS:

3 research reports were published as results of these focus groups

4 e-learning modules, video series “Participate in Europe”:

- 1) The European elections, what is at stake?
- 2) History and Institutions of the EU
- 3) Engagement and Democratic innovation (coming soon)
- 4) Diversity in Europe and European citizenship education.

### OUTCOMES:

Development of a more extensive network, capable of involving at European level different stakeholders/ambassadors/alumni giving them opportunities to meet and work together. All the initiatives aimed at raising awareness of Erasmus+ programme opportunities, and to support the creation of a new generation of pro-European citizens.

### OUTPUTS:

9 international TCA events (in Italy, Sweden, Belgium, Spain and Portugal) and 3 National events in Italy on EU values and European citizenship have been organized.

Networks were engaged in dissemination activities such as the initiative "Erasmus goes to town" with the participation of over 3.500 pupils, students and learners all over Europe (40 schools and educational institutions visited, from pre-primary to upper secondary level).

# SOCIAL INCLUSION IN HIGHER EDUCATION

**PARTNERSHIP:** RS01, SI01, CZ01, NL01, NO01, EE01, BE01, SK01, FR01, IE02, IS01, EL01

The main goal of the LTA was

- to support participating and non-participating National Agencies to enhance social inclusion among programme participants with fewer opportunities;
- to create a network of experts;
- to involve the European Commission and various stakeholder groups to deliver documentation of useful data and resources and good practices.
